

Enjoy a more convenient, safe and
secure way to pay

**Add your American Commerce Bank cards to your
digital wallet**

**No matter how you choose to shop,
your digital wallet makes it even easier
to pay with your cards.**

Simply add your American Commerce Bank
card to Apple Pay® or Google Pay™. Then
you can enjoy a new secure way to pay —
in-person, in-app or online.

Here's why you should set up your digital wallet today

Reduce fraud

- Your actual card number is not stored in your digital wallet and never used when you make a purchase
- A separate token account number is assigned when you load your credentials to the wallet
- Transaction information is encrypted for secure shopping
- Payment codes are unique to every transaction, so they can't be reused by a fraudster for another purchase
- Your digital wallet is protected by your mobile device's security settings, so only you can unlock it with your biometrics and passcodes

Save time

- Most purchases take just seconds to complete
- Just hold your mobile device over the payment terminal at the store — checkout is a breeze
- Pay in an instant when you shop online — simply choose your American Commerce Bank cards from your digital wallet
- You can also make quick in-app purchases with your digital wallet
- Your digital wallet pulls in your credentials automatically — so you don't have to look for your card or type in your information

Make contactless payments

- You can make a safe, touch-free transaction with your cards
- There's no need to present a physical card when you're shopping in person

- Simply hold your mobile device over the payment terminal and you're done

Start using your digital wallet today

Add your American Commerce Bank cards to Apple Pay or Google Pay.
